OR1401 Lock tag specifications

introduction: The lock tag is a one-time tamper-resistant label widely used in the financial industry, logistics industry and e-commerce industry, helping customers to achieve the functions of anti-counterfeiting, anti-removal and anti-adjustment. The label has a simple and elegant appearance design, rounded edges and corners, and uses modified PP material, which is tailored for high-end leather goods and bags.

Item	Parameter
Model	OR1401
Application	Logistics management, asset inventory, electronic anti-counterfeiting
Size	48*180*6mm
Material	Modified PP
Tensile Strength	Tensile force ≥15KG, tape break
RFID working protocol	ISO/IEC 18000-6C EPCGlobal Class 1 Gen 2
RFID working frequency	860~960 MHZ（Global)
Chip	Higgs 3
Recognition distance	2~5 米/up to 16ft (US) (Related to identification equipment and environment)
Package	1000pcs/ctn
Weight	7kgs/ctn
Operating temperature	-40℃ ~85℃/ 7 years
Storage humidity	30% to 70%
