

OR2302/OR2303-Smart Interactive Screen

Specifications

Introduction: OR2302 / OR2303 intelligent interactive screen, this product combines ergonomic design, smooth and beautiful appearance, sophisticated technology, has a good interactive experience and multi-touch function, users can independently view product information and inventory, hot selling products, As well as member evaluation, it is powerful and can be customized according to customer needs. It is widely used in zero areas such as asset management, shoes and clothing.

Item	Parameter
Working frequency	American standard (902 ~ 928MHZ) national standard (920 ~ 925MHZ) European standard (865 ~ 867MHZ) optional frequency
Model	TD43-A01/TD32B-A01
RFID UHF output power	0-30dbm,adjustable
RFID UHF Antenna	Integrated circularly polarized antenna
Touch technology	Capacitive touch screen
Processor	Intel® Core i5
User Interface	Capacitive multi-touch screen (resolution 1920 * 1080p)
physical dimension	997*590*58/750*445.23*48.2mm
Data interface	Wired interface: 100M Ethernet, RS232 / RS485 serial port; unlimited interface; WiFi
Accessories	Power cord + WiFi antenna, wall mount (standard)
powered by	Input power 110V-240V output power 12V 5A
Operating temperature	0°C-38°C
Weight	46kg/22.4kg
Size	32 寸/43 寸
