

## OR2301-Intelligent price inquiry machine specifications

Introduction: OR2303 intelligent price inquiry machine, this product can bring good interactive experience to users. Users can get product information by clicking the screen, which can be built-in modules such as RFID, printing small tickets, QR code scanning and shopping. Provides assistance in optimizing customer experience, independent shopping, and sales support, and is widely used in retail department stores, clothing inventory, asset management and other fields.

Item	Parameter
Working frequency	American standard (902 ~ 928MHZ) national standard (920 ~ 925MHZ) European standard (865 ~ 867MHZ) optional frequency
Trial Agreement	ISO 18000-6B/6C,EPC G2
RFID UHF output power	0-30dbm,adjustable
Card sensitivity	Reading distance 3 meters (related to tag performance)
RFID UHF Antenna	Integrated circularly polarized antenna
Touch technology	Capacitive touch screen
Processor	Intel® Core i5
User Interface	Capacitive multi-touch screen (resolution 1920 * 1080p)
physical dimension	900*45*55mm
Data interface	Wired interface: 100M Ethernet, RS232 / RS485 serial port; unlimited interface; WiFi
Accessories	QR code scanning port, scanner
Powered by	220V
Operating temperature	20°C-60°C
Packaging dimensions	1000*500*60mm

Weight	20kg
